

File Code: 3410

Date: June 29, 1999

Mr. Joe Hautzenroder
Staff Forester, Code 2432
Naval Facilities Engineering Command
Washington Navy Yard
Washington, DC 20374

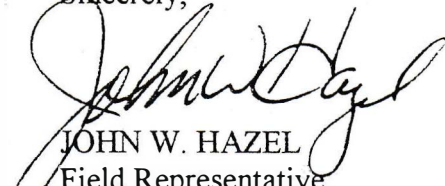

Dear Mr. Hautzenroder:

On June 13 and 15, 1999 Rod Whiteman of my staff conducted aerial detection surveys for gypsy moth-caused tree defoliation at the Annapolis Naval Academy and Reservation, Pomonkey, Maryland Point, Blossom Point, National Naval Medical Center and D.W. Taylor Naval Ship Research and Development Center (Carderock and Annapolis). I am pleased to report that no defoliation was detected at, or in the vicinity of, any of these Naval sites.

However, if you anticipate requesting either financial or technical assistance for gypsy moth control in 2000, please contact Brad Onken or Rod by letter or telephone (304) 285-1541 before August 27, 1999.

Please contact Rod at the above number if you have any questions regarding this aerial survey letter.

Sincerely,

JOHN W. HAZEL
Field Representative
Morgantown Field Office
